

EP 782
Solid State Electronics
 Fall/Winter 2016/17
 Course Outline

COURSE DESCRIPTION

The course serves as a first graduate course in Solid State Electronics and covers the following topics: Crystallography - bonding and structure, free and nearly free electrons, energy bands; Electronic aspects of semi-conductors - doping, carrier statistics; Point defects - energy levels, atomic configuration, thermodynamics; Experimental aspects of defect spectroscopy

INSTRUCTOR OFFICE HOURS AND CONTACT INFORMATION

Dr. Peter Mascher
 AMH 203
mascher@mcmaster.ca
 ext. 24963

Office Hours:
 By appointment

TEACHING ASSISTANT OFFICE HOURS AND CONTACT INFORMATION

N/A

COURSE OVERVIEW

Week	Topic	Readings
1	General Solid State Physics – Bonding and Structure	Custom Courseware
2-4	The Perfect Lattice - Real Space and Reciprocal Lattices; Free and Nearly Free Electrons	Custom Courseware
5-8	Semiconductors - Energy Bands; Methods of Band Structure Calculations; Experimental Confirmation; Intrinsic and Extrinsic Semiconductors	Custom Courseware
9-13	Defect Engineering - Doping and Impurities; Electronic Configuration; Energy Levels (Shallow and Deep States); Vacancies and Interstitials; Lattice Relaxations and Metastabilities	Custom Courseware

ASSESSMENT

Component	Weight
Presentation	30%
Report	30%
Final Exam (oral)	40%
Total	100%

ACADEMIC INTEGRITY

You are expected to exhibit honesty and use ethical behaviour in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity.

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behaviour can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: "Grade of F assigned for academic dishonesty"), and/or suspension or expulsion from the university.

It is your responsibility to understand what constitutes academic dishonesty. For information on the various types of academic dishonesty please refer to the Academic Integrity Policy, located at <http://www.mcmaster.ca/academicintegrity>

The following illustrates only three forms of academic dishonesty:

1. Plagiarism, e.g. the submission of work that is not one's own or for which other credit has been obtained.
2. Improper collaboration in group work.
3. Copying or using unauthorized aids in tests and examinations.

ACADEMIC ACCOMMODATIONS

Students who require academic accommodation must contact Student accessibility Services (SAS) to make arrangements with a Program Coordinator. Academic accommodations must be arranged for each term of study. Student Accessibility Services can be contact by phone at 905.525.9140 ext. 28652 or e-mail at sas@mcmaster.ca. For further information, consult McMaster University's Policy for [Academic Accommodation of Students with Disabilities](#).

NOTIFICATION OF STUDENT ABSENCE AND SUBMISSION OF REQUEST FOR RELIEF FOR MISSED ACADEMIC WORK

1. If you are seeking relief for missed academic work because of an absence lasting less than five days in duration, you must use the [McMaster Student Absence Form](#).
2. Absences lasting more than five days must be reported to the Associate Dean's Office (JHE-A214) and appropriate documentation must be provided. For medical absences, the University reserves the right to require students to obtain medical documentation from the Student Wellness Centre.
3. You should expect to have academic commitments Monday through Saturday but not on Sunday or statutory holidays. If you require an accommodation to meet a religious obligation or to celebrate an important religious holiday, you may use the McMaster Student Absence Form or contact the Associate Dean's Office.
4. At the third request for relief of academic missed work, you will be asked to meet with the Assistant or Associate Dean (or delegate). Relief for missed academic work is not guaranteed.

5. You are responsible to contact your instructor(s) promptly to discuss the appropriate relief.
6. It is the prerogative of the instructor of the course to determine the appropriate relief for missed term work in his/her course.

NOTICE REGARDING POSSIBLE COURSE MODIFICATION

The instructor and university reserve the right to modify elements of the course during the term. The university may change the dates and deadlines for any or all courses in extreme circumstances. If either type of modification becomes necessary, reasonable notice and communication with the students will be given with explanation and the opportunity to comment on changes. It is the responsibility of the student to check their McMaster email and course websites weekly during the term and to note any changes.

TURNITIN.COM STATEMENT

In this course we will be using a web-based service (Turnitin.com) to reveal plagiarism. Students will be expected to submit their work electronically to Turnitin.com and in hard copy so that it can be checked for academic dishonesty. Students who do not wish to submit their work to Turnitin.com must still submit a copy to the instructor. No penalty will be assigned to a student who does not submit work to Turnitin.com. All submitted work is subject to normal verification that standards of academic integrity have been upheld (e.g., on-line search, etc.). To see the Turnitin.com Policy, please go to <http://www.mcmaster.ca/academicintegrity/>.

ON-LINE STATEMENT FOR COURSES REQUIRING ONLINE ACCESS OR WORK

In this course, we will be using e-mail. Students should be aware that, when they access the electronic components of this course, private information such as first and last names, user names for the McMaster e-mail accounts, and program affiliation may become apparent to all other students in the same course. The available information is dependent on the technology used. Continuation in this course will be deemed consent to this disclosure. If you have any questions or concerns about such disclosure, please discuss this with the course instructor.

REFERENCE TO RESEARCH ETHICS

The two principles underlying integrity in research in a university setting are these: a researcher must be honest in proposing, seeking support for, conducting, and reporting research; a researcher must respect the rights of others in these activities. Any departure from these principles will diminish the integrity of the research enterprise. This policy applies to all those conducting research at or under the aegis of McMaster University. It is incumbent upon all members of the university community to practice and to promote ethical behaviour. To see the Policy on Research Ethics at McMaster University, please go to <http://www.mcmaster.ca/policy/faculty/Conduct/ResearchEthicsPolicy.pdf>.
